

Markdown2PDF

<https://md2pdf.netlify.com/>

Awesome Markdown to PDF!

- Online? Upload `resume.md` to stranger server?
+ Try Offline Web App!

How to use md2pdf?

1. Click button choose `.md` file.
2. Edit in editor (left panel).
3. Click **Transform!**
4. Switch 'Destination' to **Save as PDF**.
5. **Chrome recommended**

Tips

- Resize the layout what you want.
- After click `Transform` button, inverse the checkbox of '**Headers and Footers**'.
- 反選頁首與頁尾.

Code Like this

```
// index.js
function Hello() {
  console.log('World!')
}
Hello();
```

or this

```
# main.py
def awesome():
  print('awesome!')
awesome()
```
