

# Markdown2PDF

<https://md2pdf.netlify.com/>

*Awesome Markdown to PDF!*

```
- Online? Upload resume.md to stranger server?
+ Try Offline Web App!
```

## How to use md2pdf?

1. Click button choose `.md` file.
2. Edit in editor (left panel).
3. Click **Transform!**
4. Switch 'Destination' to **Save as PDF**.
5. **Chrome recommended**

## Tips

- `Resize` the layout what you want.
- After click `Transform` button, inverse the checkbox of '**Headers and Footers**'.
- 反選頁首與頁尾.

## What's special?

- You can use `html` tag!

```
Hey I'm in blockquote!
```

## Profile

- Github: [@realdennis](#)
- Project: md2pdf (Markdown2PDF)
- What about me: 🐱、🌍、🚀、📺

## Code Like this

```
// index.js
function Hello(){
  console.log('World!')
}
Hello();
```

or this

```
# main.py
def awesome():
    print('awesome!')
awesome()
```
